

Musings and observations from a lifetime in philately

AJMAN - A COUNTRY TO COLLECT ?

In 1972, Ajman issued 1,773 stamps and 193 miniature sheets, most of which were available perf and imperf. Just to put that into context, Great Britain produced its 1,733rd stamp in 1993 - 153 years after the Penny Black first appeared. Many countries have yet to reach that magical number - St Helena for example issued its first stamp in 1856 and in 2006 after 150 years had only just passed the thousand mark.

1972 Paintings of Beethoven se-tenant block of 8 cancelled to order
